Art Unit: 2825

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Claims 1-33 are allowed because the prior art of record does not teach or suggest a system/method/medium for MPW (multi-project wafer) shuttle service having combinations of elements/steps as recited in claim 1 (or similarly language in each of the independent claims): a first MPW shuttle reserving for a first group of device designs; a second MPW shuttle reserving for a second group of device designs; and a checking unit to determine whether mask data for the first group has been provided by a cut off date for the first MPW shuttle, and to exchange a first target device design from the first group with a second target device design from the second group if the mask data of the first target device design has not been provided and that of the second target device design has been provided by the cut off date.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
